RE Project : Islam - Beliefs and Practices

In our Religious Education Project this week, 6.3 are exploring how it is significant for people to go on a pilgrimage as an act of spiritual devotion.

They are also learning why people make these special journeys and how these journeys help them to reflect upon their lives. They are also learning to understand some of the ways Muslims show commitment to God by fulfilling their religious obligations. The girls are taking part in discussions to determine what a commitment is, why it is important to be committed to a task and that people have free choice in their level of commitment. They have also written about their own commitments which they will make this year and in the future. 6.1 and 6.2 will be studying the same project over the next 2 weeks.
