October: Black History Month

Throughout history, black people have made huge contributions to society in the fields of art, music, science, literature and many more areas. But in the past these contributions have often been ignored or played down because black people weren't treated the same way as other people because of the colour of their skin.

As a school, we will be focussing on black women in history. Who does your daughter consider to be an exceptional black women that has inspired others. Perhaps she could research several black women to help her decide.

Science Museum

On Tuesday, the girls enjoyed a wonderful day at the Science Museum.
