RSE Policy

RSE policy – Winterbourne Junior Girls' School

Introduction and definitions

This policy covers the teaching of Relationships and Sex Education in our school. It also covers Health education.

We define **Relationships education** as teaching children about positive relationships, with a focus on friendships, family relationships, and relationships with other children and with adults.

Children will be taught about what a relationship is, what friendship is, what family means and who the people are who can support them. Building on early education, children will be taught how to take turns, how to treat each other with kindness, how to show consideration and respect, the importance of honesty and truthfulness, permission seeking and giving, and the concept of personal privacy. Learning will reflect the fact that families can take many forms, and will be sensitive to the varied backgrounds that children may come from and the lifestyles they may have (for instance if they are in foster care or are young carers). Teachers will take care that children are not stigmatised due to their home circumstances.

Children will also learn about the differences between appropriate and inappropriate or unsafe contact, whether this is physical or online. This is a foundation for later learning about consent, which will take place at secondary school. Children will learn about positive emotional wellbeing, as well as how to recognise when they are at risk of abuse and exploitation. We will ensure that children know how to seek help if they feel they need to.

Respect is taught in a way that young children will understand, in terms of learning about boundaries with regards to sharing space, toys, books and so on.

Relationships education will reflect the way that many children spend time online. They will learn about how to recognise unsafe behaviours online, such as the sharing of images or responding to contact from other people.

Health education aims to teach children to understand physical and emotional wellbeing so they can make good decisions about their health. It will allow them to recognise what is normal for them and when to seek help. Children will learn how physical and emotional health are linked and can affect each other.

Children will learn about ways to develop their self-control and their abilities to make decisions. They will be taught about ways to respond positively to setbacks or challenges. They will also be helped to overcome prejudice and stigma around health issues, especially those connected with mental health.

Children will learn about menstruation, and girls will be helped to prepare for the beginning of their periods.

Sex education at primary school teaches children basic scientific facts about how humans and other animals grow and reproduce.

Winterbourne Junior Girls' School

RSE Policy

1 Why have we written this policy?

Although schools have been teaching this kind of lesson for many years, it is only since the Children and Social Work Act of 2017 that there has been a legal requirement for RSE to be delivered. This means that we need to update our approach and to review the content of our lessons.

2 Why is RSE being taught?

The curriculum for this topic was last updated in 2000. Since then, there have been huge changes in society and technology which mean there is a need to update the way we teach our children to negotiate the world in which they are growing up.

Relationships education aims to equip children with the skills and knowledge they need in order to form happy, healthy relationships throughout their lives. Children will learn about friendships and families, how to stay safe online and in the real world, and how to seek help when they need to.

Health education helps children to make informed decisions about their health and wellbeing, to recognise when they or others may have problems, and to know where and how to get help.

All lessons will be delivered in an age-appropriate way, using carefully selected resources and lesson plans.

3 How will we decide if a topic or activity is age-appropriate?

It may be necessary to deliver a topic earlier than planned in response to children's needs – for example, if there is a need to respond to local or national events that are causing concern, or if children are reaching puberty early. We will inform parents in these cases before the lessons are delivered.

4 Who is responsible for overseeing this subject in our school?

The people within your school who will be responsible for implementing this policy are: Mary Berkeley Agyepong (Head Teacher), Tamryn Scott-Cree (Deputy Head Teacher), Judith Hibbs (RSE lead).

5 Who will deliver RSE?

RSE will be delivered by class teachers. We believe that this is the most effective mechanism because:

- Teachers are likely to have a good knowledge of the class and their backgrounds, and can therefore tailor the lessons to best meet the children's needs
- Delivery by teachers means that the themes of RSE can be reinforced across all parts of the curriculum, thus ensuring that children receive constant and consistent messages
- Teachers can quickly identify children who need more help with an aspect of the subject, or who may be vulnerable and need additional support

We may sometimes invite external agencies to deliver specific lessons or activities. Parents and carers will be informed when this is planned and given all necessary information about the proposed sessions.

Staff are therefore responsible for:

- Delivering RSE in a sensitive way

Winterbourne Junior Girls' School

RSE Policy

- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from the [non-statutory/non-science] components of RSE

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the headteacher.

6 What will be taught?

- *Relationships Education* is designed to teach children the skills they will need throughout life in order to build happy, healthy and safe relationships. It aims to help them develop tolerance of other people, and to understand the importance of respect and kindness.

See Appendix 1 for a list of the topics that we will teach in Relationships Education. The list is taken from the Government guidance on what schools are expected to teach in this part of the curriculum.

- *Health education* - Health education covers the way our physical and mental wellbeing are interconnected.

The learning objectives that will be covered in health education are listed in Appendix 1.

- *Sex education* - Sex, puberty and reproduction are delivered through the science curriculum, which builds understanding from year one onwards. Not every year group will study topics related to sex and reproduction.

See Appendix 1 for the topics that are covered in the National Curriculum for science.

At our school, sex education is delivered in Year 5 during RSE lessons and Science lessons. The relationship part of sex education in RSE lessons will be shared with parents before delivery and these are the parts that parents will be able to withdraw children.

7 Schemes of Work and lesson plans

All our school schemes of work covering these topics will be available on our school website

8 Who will monitor the delivery of RSE, and how will learning in RSE be evaluated?

SLT, Governors and the RSE co-ordinator will monitor and evaluate the delivery of teaching and learning in RSE.

9 Right to withdraw children from lessons

There is no right to withdraw from Relationships education, or from sex education that is delivered as part of the National Curriculum. Nor is there any right to withdraw from Health education. This is because the topics covered, such as respect, safety and friendships are important if children are to grow up into happy and healthy adults.

Parents do have the right to withdraw their child from sex education that is delivered outside of the National Curriculum.

Winterbourne Junior Girls' School

RSE Policy

Parents who do wish to withdraw their child from sex education that is being delivered outside the national curriculum should contact the Headteacher to discuss the matter. This will allow them to talk through their concerns and to ask any questions they may have. It will also allow the Headteacher to explain the curriculum and the benefits that their child will gain from taking part in the lessons. A record will be made of the meeting, but such requests will be granted and children provided with alternative learning whilst sex education is being delivered.

10 Review and consultation

This policy will be reviewed every year. It will be initially reviewed by the governing body and the headteacher, in consultation with parents and staff. This will be done through Parentmail.

Parents will be invited to view relevant parts of the RSE Scheme of Work that are not part of the Science Curriculum before delivery annually. This policy will be available to view on the school website.

Appendix 1

Relationships, Sex and Health Education – learning objectives

Relationships, Sex and Health Education

Relationships Education (primary)

<p>Families and people who care for me</p>	<p>Pupils should know</p> <ul style="list-style-type: none"> • that families are important for children growing up because they can give love, security and stability. • the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives. • that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care • that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. • that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong. • how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.
<p>Caring friendships</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • how important friendships are in making us feel happy and secure, and how people choose and make friends. • the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties. • that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded. • that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right. • how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.

Winterbourne Junior Girls' School

RSE Policy

<p>Respectful relationships</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs. • practical steps they can take in a range of different contexts to improve or support respectful relationships. • the conventions of courtesy and manners. • the importance of self-respect and how this links to their own happiness. • that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority. • about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help. • what a stereotype is, and how stereotypes can be unfair, negative or destructive. • the importance of permission-seeking and giving in relationships with friends, peers and adults.
<p>Online relationships</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • that people sometimes behave differently online, including by pretending to be someone they are not. • that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous. • the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. • how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. • how information and data is shared and used online.

<p>Being safe</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). • about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.
-------------------	---

Winterbourne Junior Girls' School

RSE Policy

	<ul style="list-style-type: none"> • that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact. • how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. • how to recognise and report feelings of being unsafe or feeling bad about any adult. • how to ask for advice or help for themselves or others, and to keep trying until they are heard, • how to report concerns or abuse, and the vocabulary and confidence needed to do so. • where to get advice e.g. family, school and/or other sources.
--	---

Physical Health and Mental Wellbeing Education

Primary pupils will learn:

Mental Wellbeing	<p>Pupils should know:</p> <ul style="list-style-type: none"> • that mental wellbeing is a normal part of daily life, in the same way as physical health. • that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. • how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings. • how to judge whether what they are feeling and how they are behaving is appropriate and proportionate. • the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental wellbeing and happiness. • simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests. • isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. • that bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing. • where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online).
------------------	--

Winterbourne Junior Girls' School

RSE Policy

	<ul style="list-style-type: none">• it is common for people to experience mental ill health. For many people who do, the problems can be resolved with the right support
--	--

Winterbourne Junior Girls' School

RSE Policy

<p>Internet safety and harms</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • that for most people the internet is an integral part of life and has many benefits. • about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. • how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private. • why social media, some computer games and online gaming, for example, are age restricted. • that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. • how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted. • where and how to report concerns and get support with issues online.
<p>Physical health and fitness</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • the characteristics and mental and physical benefits of an active lifestyle. • the importance of building regular exercise into daily and weekly routines and how to achieve this; for example walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise. • the risks associated with an inactive lifestyle (including obesity). • how and when to seek support including which adults to speak to in school if they are worried about their health.
<p>Healthy eating</p>	<p>Pupils should know:</p> <ul style="list-style-type: none"> • what constitutes a healthy diet (including understanding calories and other nutritional content). • the principles of planning and preparing a range of healthy meals. • the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).

Winterbourne Junior Girls' School

RSE Policy

Drugs, alcohol and tobacco	<p>Pupils should know:</p> <ul style="list-style-type: none"> • the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.
Health and prevention	<p>Pupils should know:</p> <ul style="list-style-type: none"> • how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. • about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. • the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn. • about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist. • about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing. • the facts and science relating to immunisation and vaccination
Basic first aid	<p>Pupils should know:</p> <ul style="list-style-type: none"> • how to make a clear and efficient call to emergency services if necessary. • concepts of basic first-aid, for example dealing with common injuries, including head injuries.
Changing adolescent body	<p>Pupils should know:</p> <ul style="list-style-type: none"> • key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes. • about menstrual wellbeing including the key facts about the menstrual cycle.
