Winterbourne Junior Girls' School Year 6 Newsletter 16

Week ending: Friday, 13th January 2023

Our Learning this week:

In Maths we are learning about Ratio and how it links to fractions and other ways of expressing proportion.

We have started our English writing with a setting description—imagining coming into a busy container port on a boat. This has provided plenty of opportunity for expanding vocabulary as well as using figurative language.

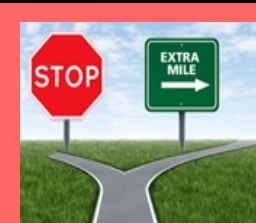

Ask your daughter to explain figurative language to you this week!

SATs Evening

It was lovely to see such a great turnout at our SATs information evening this week - it was clear that parents were impressed by the amount of learning the girls have to take on board during Year 6.

We hope that it is also clear how important the girls' homework is, and how crucial it is that they attend Saturday Tuition every week—the SATs will be here before we know it!

Design and Technology

This half term, our Design and Technology lessons will be spent planning and building a model set for the ballet production of Alice's Adventures in Wonderland. So far the girls have sketched out their ideas—next week they will be presenting their finished plan, complete with a list of instructions and materials. The intention is to use items easily found at home—there is no obligation to buy anything, although the girls are allowed to bring in whatever they think will be suitable for their projects.
