## Year 6 Newsletter 24

Week ending: Friday, 17th March 2023

### Our Learning this week:

We have enjoyed a couple of very informative and interesting online lessons this week—one on BSL (British Sign Language) which really got the girls' attention, and a second hour-long Science Live Lesson based on wool and its properties. This linked to Science Week. The girls found out about the many uses of wool, including some projects which benefit the environment. They came up with some great questions and ideas during the live lesson.

### The Green Project

We were back at the allotment on Thursday sowing tomatoes, brussels sprouts, parsnips and radishes. The girls also took home an onion each, which they will be nurturing and bringing back with them to the barbecue—biggest onion wins a prize! Please remember not to eat your daughter's onion.

### Science Fair

Thank you to all the parents who visited our wonderful Science Fair. The girls did a fantastic job of presenting and our Year 6 projects on the topic of evolution and adaptation were fascinating to read about. Each class worked hard on their presentation and it showed in the level of interest each project generated.
