This Week's Learning

In Maths, Year 6 was exploring multiplication and division. They were then challenged to use these calculations to solve word problems.

In English Reading, they used inferences to write what expression of

the character or the setting they get from the evidence given in the text.

The girls produced some excellent pieces when describing a character's thoughts from 'Torn Apart'.

In Science Year 6 investigated how the Earth's rotation on its axis causes

the position of the Sun to change during the day, and how this affects the length of shadows. They also explored the relative sizes of the Sun, moon and the Earth.

The Green Project has started up once again after the summer break, and the girls have enjoyed their first visit to the school's allotment.

They harvested a selection of home-grown vegetables which we are hoping to turn into soup in the school kitchen!
