Aspirations, Expectations, No Excuses

Value - Honesty

Honesty is always the best policy.

This Week...

English

This week we have focused on life in St Kilda before the evacuation of the island in 1930. The girls have been fascinated by how hard life was for the people and that they only got a cold when the mainlanders came to the island.

Mathematics

We have started our topic on area and perimeter. The girls have been looking at what these terms mean and how to work them

out. When you are out ask your daughter where the perimeter of an item is.

We have started our next topic—**What happens inside us?**

The main focus is Science and PE.

Science

The girls have looked how we classify objects into living, dead or never alive. The girls also carried out an investigation to find their heart rate at rest and after exercise. They used their pulse rate to calculate it and then learnt how this is connected to the heart. They learnt how the heart is constantly working

and is like a pump. The pupils also learnt that exercise makes our hearts beat faster.

History

The girls found out that in the past, sailors suffered from scurvy. In 1753 a doctor carried out an experiment and found that fruit juice helped to keep scurvy at bay. This discovery started the journey to help us understand what a healthy diet is today.

Safety– From Monday all WJGS girls need to come through our Pedestrian Gate in the morning
