Our topic for this half term is electricity! This week, the girls were introduced to what electricity is and how it is powering our mains plugs and stored into our batteries. They also learnt that electricity is created by generators which can be powered by gas, coal, oil, wind or solar.

The girls then went on an appliance hunt to find different electrical items around the school.

The girls were then introduced to a simple circuit and how to light a bulb using a battery, wires and a switch.
