This Week...

English

Pupils explored the question:

Should Cherry's parents be blamed for what happened to her? They planned and wrote balanced arguments, using persuasive language and key features of argument writing.

Maths

Pupils focused on converting between litres and millilitres, deepening their understanding of volume in the metric system. They also explored the Imperial system and began learning how to convert between Imperial and metric units, building skills to

apply math in real-life contexts.

Celebrating 200 Years of Railways

On Tuesday, Year 5 had a blast chugging through the stunning High Weald to celebrate 200 years of the railway! Aboard a real steam train, pupils stepped back in time, explored how trains and signals have evolved, picked up key railway safety tips, and experienced the magic of early rail travel on an unforgettable journey.

On Thursday, year 5 visited Herstonceux Observatory Science Centre to bring their science learning to life. Surrounded by historic domes and telescopes, they explored forces, space, and light through hands-on experiments and interactive exhibits — sparking wonder and inspiring big questions.
